Grand Canyon Gas Logs

Established in 2013 Grand Canyon Gas Logs was designed to bring quality, realism and American manufacturing back to the hearth industries gas log market. Scouring the South West for the perfect logs, each log is individually cast and hand painted to perfection. Grand Canyon Gas Logs is a combination of the industry's most authentic looking ceramic refractory logs and the highest quality manufactured array of burners. Designed, engineered and manufactured in the United States, Grand Canyon Gas Logs craftsman pour American pride into each log and burner they build. Manufactured in the heartland of America, our burners are made of 20 gauge 304 thickness stainless steel and feature a fully welded frame for superior quality that is unmatched in the gas log market. All products manufactured by Grand Canyon Gas Logs carry a lifetime warranty when installed inside your fireplace. Take a look at our full line of indoor and outdoor products to truly understand the Grand Canyon Gas Log difference.

Who Is Kyle?

Kyle is a real bearded man scanning the Arizona country side in search of the finest logs. This is not a mythical creature that we have created but a real person that would love to shake your hand. Kyle's jolly spirit is infectious and his tenacity and work ethic is unmatched by any log hunter of his kind. The spirit of Kyle is the foundation of Grand Canyon Gas Logs striving to bring reality to an old industry. Grand Canyon Gas Logs, "Real Logs From Real People".

2 Burner 24" AWO

3 Burner 30" AWO

3 Burner 36" AWO

3 Burner 42" AWO

ARIZONA WEATHERED OAK

These logs were found in the mountains of the Northern Arizona forest. In fact, all of the logs that make up this collection were gathered from one tree that was hit by lightning more than 40 years ago.

The effects of the lightning strike created bulges, twisting and cracking in the wood which are unique to our Arizona Weathered Oak Collection.

Available in regular sizes 18" - 60" Front View & See Through

Now available in extra large widths of 48" and 60"

2 Burner 60" AWO

JUMBO SERIES & JUMBO SLIMLINE SERIES

Our Jumbo Series matches our massive Jumbo burners with our hefty Jumbo Arizona Weathered Oak Logs. The 1" tines on the burner are a perfect complement to the 12" diameter of the Jumbo Arizona Weathered Oak front log. Big tines and big logs are not all this collection has to offer as massive flames are the final part of this 3 headed beast. Available in sizes 24" - 120" front view and see through. Jumbo burners have a depth of 21" and the Jumbo Slimline burners are 18" deep.

Jumbo Burner & Jumbo 36" Logs AWO

Jumbo Burner & Jumbo 60" Logs AWO

ARIZONA JUNIPER

3BRN-24 / AJ24LOGS

ARIZONA JUNIPER
Found in the washes and valleys of the Northern Arizona terrain, much of the character of the natural wood comes from the rainy springs and hot summers causing exotic cracking and wild twisting in the wood. Our log hunters hiked the washes hand-picking each of the logs that make up the Arizona Juniper sets. Take notice of the detail in each one of the logs that feature deep cracking, pitting and natural wood decay only perfected by Mother Nature.
Available size 18" - 42" Front View & See Through

WESTERN DRIFTWOOD

2BRN-30 / DRIFTWOOD30LOGS

WESTERN DRIFTWOOD

Aptly named, this beautiful set of timber was conceived with one of the world's 7 natural wonders in mind - The Grand Canyon. This most recent addition to the company's line of hand-crafted gas logs resembles the natural terrain of the Grand Canyon along the sun baked banks of the Colorado River. Scorching summers and cool wet winters served as inspiration behind such detail. It features a washed-out, sun-bleached exterior against rich gray tones and bright white elements creating the backdrop for deep, cracking, splitting in-the-woods bark. We recommend the Western Driftwood log set as the perfect option for any transitional design.

Available in sizes 18" - 42" Front View & See-Through

BLUE PINE SPLIT

2BRN-24 / BPS24LOGS
Split Side of Logs Facing Out

BLUE PINE SPLIT

These logs were found in the bark beetle ravaged forest of Norther Arizona. The infestation of beetles left behind acers upon acers of downed trees, however it created unbelievable wood character only captured in the Blue Pine Split log collection.

The deep grain pattern and gray highlights make this look like the wood was split right in half in your fireplace. Don't like the split side, reverse the log to showcase the fantastic Alligator bark.

Available in sizes 18", 24" & 30" in Front View Only

ARIZONA WEATHERED OAK CHARRED

2BRN-30 / AWOC30LOGS

ARIZONA WEATHERED OAK CHARRED

This collection combines the detail and beauty from our native series and adds the extra dimension of an authentic charred look. Our log hunters hand-picked each of the logs and then burned the front logs right in half. Once burnt the logs are molded to capture the most realistic looking charred set on the market.

Available sizes 18" - 42"

KIVA SERIES

A Southwest favorite, the Kiva Series has been found to be a very versatile burner system. Designed to fit Adobelite Kiva fireplaces, burners 18, 24 and 30 have actual overall widths of 12", 18" and 21". With an overall depth of 9" this burner packs a punch for its small stature. Log options available are the Arizona Weathered Oak or the Arizona Juniper.

GAS BURNERS

Grand Canyon burners are manufactured with American pride in the Heart Land of the United States. Our 2 & 3 burner systems are ANSI certified from sizes 18" - 42" and all burners manufactured are factory tested to meet ANSI standards. **STAINLESS STEEL** pans and Schedule 40 hard pipes are just some of the reasons Grand Canyon burners stand out from the rest. With a lifetime indoor use warranty our burners are built to stand the test of time.
