This report is for the exclusive use of Intertek's Client and is provided pursuant to the agreement between Intertek and its Client. Intertek's responsibility and liability are limited to the terms and conditions of the agreement. Intertek assumes no liability to any party, other than to the Client in accordance with the agreement, for any loss, expense or damage occasioned by the use of this report. Only the Client is authorized to permit copying or distribution of this report and then only in its entirety. Any use of the Intertek name or one of its marks for the sale or advertisement of the tested material, product or service must first be approved in writing by Intertek. The observations and test results in this report are relevant only to the sample tested. This report by itself does not imply that the material, product, or service is or has ever been under an Intertek certification program.

The LEO Series fireplaces include the following models:

LEO/100, LEO/L/100, LEO/P/100, LEO/LP/100, LEO/200, LEO/L/200, LEO/P/200, and LEO/LP/200

All models are built on a similar platform with the only difference between the LEO 100 and LEO 200 is the length of the unit, the burner length, and the input rate. The LEO 100 models all have the same input rating and all the LEO 200 models have the same input rating.

LEO/100, LEO/L/100, LEO/P/100 – 1140 mm wide x 451 mm deep x 878.5 mm high

LEO/LP/100 – 1155 mm wide x 451 mm deep x 878.5 mm high

LEO/200 – 2000 mm wide x 453 mm deep x 979 mm high

LEO/L/200, LEO/P/200 – 2032 mm wide x 453 mm deep x 979 mm high

LEO/LP/200 – 2076 mm wide x 453 mm deep x 929 mm high

The construction review is for the entire model series, which all use the same electrical and gas components, as well as the same basic physical construction.

| Attribute | Value |
|--------------------------|--------------------------------|
| Criteria | CAN / CSA 2.17-M91 (2009) |
| Criteria | ANSI Z21.88 / CSA 2.33 (2014) |
